Sounds like we may need to maybe line up a conversation between you and Sen. Lee soon. And reminder that we will have Rep. Willis here in March to preview ROI. So that might be good time to catch him on this subject unless it appears that this starts to move faster.

On another note and an FYI – H96 (REACH act / American History course requirement) – I was in House Clerk's office today and Rep. Pickett walked in to be added as a bill sponsor to that bill with Kidwell and Hardister. Couldn't persuade him to reconsider. And Eric tried to have conversation with Sen. Lee about same this morning, but was clear from conversation that Sen. Lee likes the bill as well.
